Retail

The complete lighting solution provider

The continuous expansions and renovations taking place in the retail industry has attracted considerable attention from us at Huda Lighting. We have seen steady and healthy growth on a regional level over the past few years, and we predict this segment to be one that will continue to grow, giving us a chance to keep offering our services to retailers and developers.

A retail outlet's interior not only reflects the brand's image but also has a significant impact on customers and employee's behavior and experience. A comfortable environment of quality interior elements will leave the brand with content individuals. Lighting is one of the main interior elements of any space, and proper selection of the needed fittings can transform the space of retail outlets and impact the experience of shoppers.

Huda Lighting's nineteen years of experience together with the strong alliances it has formed with top international lighting manufacturers has allowed it to stand out in the industry and serve more retailers within the region with their full requirements.

Huda Lighting's wide range of products and services, make it more of a lighting solution provider, in many cases offering turnkey solutions of lighting, automation and other relevant products and systems. Its consistently growing list of project references and corporate clients can only demonstrate the trust the industry has put in us, something we are proud of, and will continue to improve on and develop.
